Title: Financial Statement Analysis

Author: Hu Yu-hsuan (胡 餘 煌)

Publisher: Li-hsin Kuai-chi Yung-pin-she, Shanghai, 1951

Sponsor or
Issuing Authority: None indicated

• No Pages: 150

Language: Chinese

Area of Coverage: China

Subjects Covered: Preparation of financial statements, analysis of individual accounts found in financial statements, ratio of assets and liabilities, analysis of working capital

Review: Gives a detailed breakdown of the accounts in a financial statement and explains how these accounts should be analyzed to arrive at an estimation of the financial status of an enterprise. Includes numerous illustrative problems; closing chapter is devoted to practice problems. Principles expounded in this book appear to be based upon American financial practices.
